It started quite young  
Yeah, I learned how to, to,  
To stay quiet, just stay quiet, always stay  
We're cursed with disease  
I have to be perfect  
And you're not better than me, no.

Don't you ever get lonely?  
Yeah, don't you ever get lonely?  
'Cause it's no better for me  
I still cannot breathe

Don't you ever get lonely?  
Yeah, well, don't you ever get lonely?  
'Cause I never saw you leave this lately

Well I wasn't sure that I would be staying

So let's stay quiet, yeah, let's stay quiet  
Then we can live  
Alive in this bed  
Alive for the evening  
And you're no better  
It's never gone, no,  
I could be so safe

Don't you ever get lonely?  
Yeah, don't you ever get lonely?  
'Cause it's no better for me  
I still cannot breathe

Don't you ever get lonely?  
Yeah, well, don't you ever get lonely?  
'Cause I never saw you leave this lately
