Yeah, I got what I wanted  
They bled out my organs  
They cut me wide open till I grinned  
Guess it's time

Doctors came right in  
Said he most likely won't win  
But who the hell am I?  
Spent my life in the midwest

Hailey, if you're out there  
I wish you all the very best, dear  
Yeah, got me away from there  
And Hailey, if you're out there  
I hope you made it through December  
Yeah, that seems like such a blur

It was always the same shit  
At that damn apartment  
Yeah baseline took its toll, took its toll  
It's my fault

She loved those nights when  
We'd breathe up that black air  
Yeah, come on tell me how, tell me how  
I'm not underground

Hailey, if you're out there  
I wish you all the very best, dear  
Yeah, got me away from there  
And Hailey, if you're out there  
I hope you made it through December  
Yeah, that seems like such a blur
