So is there anywhere you want to go?  
She says any place is home  
But is there anywhere you want to go?  
Her crooked smile, how about Mexico?  
We'll get back  
You will surely be, you'll be the death of me  
Yeah, you are surely all the better parts of me  
So get back

They won't take us alive  
I don't even think I saw it coming  
No they won't take us alive

You're the ending of the movie,  
The one I meant to see  
You're the ending of the movie,  
The kind that fucks with your head  
We'll get back  
Oh here we go all the same,  
But do you ever get outside your brain?  
Oh here we go, all the same  
I'll be around for a couple of days  
So get back

They won't take us alive  
I don't even think I saw it coming  
No they won't take us alive

Now I know what you're talking about
