There's a smile on my face again  
'Cause I'm laying with her skin  
And I will be here all night  
You best get your words right  
'Cause I've tangled them before  
She caught me running out the back door  
Never will it happen again  
Yeah I found out I've been

I've been out of my mind for some time now  
But come on, you knew that  
You, you knew where my head has been at  
Yeah but you're still hoping it comes back

I thought up words to say  
I wrote them down for her sake  
Never did she ever complain  
Yeah she's seen my worst days

'Cause we've got so much to do  
Yeah the lights poured through your bedroom  
Why would I leave here again?  
Yeah I found out I've been

Out my my mind for some time  
But come on, you new that  
You, you knew where my head has been at  
Yeah 'cause I've been out of my mind for some time  
now  
But everybody knew that  
Hope someday I'll get my head back  
Yeah, asking where the fuck it's been at
