1st Verse:

Mmmm baby baby, baby babe

First things first

Baby I apologize for all of the lies that I've told you up
to now

I promise I'll

Change my ways if you stay

In my heart, in my mind, in my world

Cause you're the only girl for me

So if you're thinkin bout walkin out

Let's talk it out and work it out now

No sense in tearing down

This love we feel

Cause it's oh so real

Chorus:(2x)

I

Can't

See

You being with no one else

But

Me

Baby I

Can't even stand

Thinking bout you touching another man

2nd Verse:

What must I do for you to show you that I mean what I
say

Lord I pray

We can stay together

But it don't matter

If you stay or if you leave

Cause in my heart you will always be

You're the only girl for me

Even in high school

You were so cool

What a pleasure just to know you girl

There's nothing in the world
I won't do
For you

Chorus:(2x)

I
Can't
See
You being with no one else
But
Me
Baby I
Can't even stand
Thinking bout you touching another man

Bridge:

See I
Don't wanna lose this love we have
Oh no no
See I
Don't wanna say bye-bye cause it's hard enough to find
love at all
I'm willing to fight for you
There's nothing
I
Won't do
To make you stay
Oh no no
Nobody else will do

Can't stand it
Won't Stand it
Stick around a little longer
Stick around a little longer

Whoaaa...

I don't wanna lose your love
