Sitting here thinking about  
All the innocent people I done hurt in my past  
Relationships, never felt the slightest prepared  
Till it happened to me  
It's funny, I was so quick to laugh  
When it's someone else  
But when it happens to us the joke is never as funny  
As we all thought it was  
For we felt the same thing.

And it's true, there is no fault  
When the rabbit's got the gun  
And you're in love with the one that hurt you most  
And they say karma is a bitch  
And I say I agree with that  
Cause this whole experience has let me know

That breaking a woman's heart is like throwing a  
boomerang  
It will come right back to you again  
So remember that when it's happening to you, don't cry  
When it gets hard, cause you threw a boomerang  
And it came right back to you again  
So remember that when it's happening to you.

Used to play a lot of games with no conscience  
Couple different lovers at once with no problem  
Loved the way it felt to have everyone wanting me  
Now I'm singing, try to be strong but I'm hurting  
And the sad part of it all is I deserve this  
This was meant to teach me a lesson, it's working  
perfectly.

Cause it's true, there is no fault  
When the rabbit's got the gun  
And you're in love with the one that hurt you most  
And they say karma is a bitch  
And I say I agree with that  
Cause this whole experience has let me know.

That breaking a woman's heart is like throwing a

boomerang  
It will come right back to you again  
So remember that when it's happening to you, don't cry  
When it gets hard, cause you threw a boomerang  
And it came right back to you again  
So remember that when it's happening to you.

There I know few realize a woman's scorn  
Then heaven won't help you hide if you break a heart  
Try your best to be honest, try to keep every promise  
Cause in the end if it doesn't work out  
She don't wanna be friends  
And she don't wanna leave it.

Don't break a woman's heart, it's like throwing a  
boomerang  
It will come right back to you again  
So remember that when it's happening to you, don't cry  
When it gets hard, cause you threw a boomerang  
And it came right back to you again  
So remember that when it's happening to you.

Go all the way, go all the way.
