lord they really think they fooling you by coming to  
church on sunday  
praying and laying hands on folks  
stomping and jumping around faking the holy ghost  
but its a thin line between  
walking it and talking it and living it and giving it  
or just pretending its alright  
and did they really think that they  
could pull the wool over your eyes (oh)  
did they really think that by thinking that  
they were saved they would get the same reward  
this will be the realest thing i ever wrote 4-sho  
and after this a lotta folks wont like me no more  
but after this i gotta go answer to you lord  
so i made up my mind  
ima go to church on sunday  
and see the soul when they hurt somebody's feelings  
so that maybe i will will be there  
as it is in heaven  
and hopefully they will see  
how much they really be discouraging a lil old sinner  
like me
