Scars across his back  
You were in his thoughts  
Throughout all the pain  
Your heart was all he sought

(Chorus):  
Brutality through beatings  
Treated like a criminal  
Blood drips from his face  
As he's spit on and called a fool  
You've never had a taste  
Of what he's been through  
And this is the same being  
That has created you

Held up on a cross  
With nails through his hands  
He took the torture  
That you couldn't stand

(Chorus)  
After the death  
That he took for you  
Your worthless life  
Can become new
