Flesh of My Flesh, Blood of My Blood

Uhh

Swiss beats (Uhh uhh)

Nigga, ryde or die (uhh uhh uhh)

DMX what what (uhh uhh uhh)

[Chorus - DMX]

Ain't no way you're gonna stop my flow

Ain't no way ya niggaz you just don't know

But niggaz is about to go oh no oh no

Ain't no way you're gonna stop my shine

Ain't no way you niggaz wanna stop mine

Ya niggaz must be out yo mind, I don't know why

What the fuck is you niggaz pressin me for

I saw more ass than a ho and you stressin the raw

If I was testin your jaw, maybe then you would respect me

But you can't respect me cuz you don't even know me

Nigga check me (come on)

I'm that motherfucker that'll put you

To sleep, while you sleepin

Then die from a hundred feet, you just knew you was creepin

Bad decisions lead to last decisions

Fast collision, now yo ass is missin (what)

Take it over there now you bring it back to the streets

Have you forgotten what it means when a dog shows his teeth?

Let me break it down for you he's about to attack you

Still standin here faggot? You must want me to smack you

You ain't been there or done that, fuck

Is y'all niggaz tellin me

I'm the only nigga, walkin the streets with four felonies

But peep this, I see shit is hard, niggaz is strugglin

Let me ramble on for little while, go back to hustlin

[Chorus]

Give it to niggaz just how they give it to, me
Hit 'em in a rhyme because I'm a M, C
Been a lot of places most niggaz won't, see
That's why I'm at a level that y'all niggaz won't, be
Let your man hold somethin now he want, more
You ain't no fuckin killer what was the front, for
It was a time when the world was at your front, door
Now they change places niggaz want, raw
Niggaz laugh at me and was mad at me
Cuz the way life was goin had to be a, tragedy
But after me, it's over, I'ma take the whole verse
I'm tryin to keep it real that's why I
Let y'all niggaz go first
But you look to get force right in the mouth
Didn't appreciate what you got when you got
It so if I see it, I'ma tot it
Where to hide it you gotta car better drive it
The fuck up outta here and hope and pray I
Don't pull up along side it
COME ON

[Chorus]

Niggaz don't know so I gotta flip
It seem they've forgotten how dark it could get
Barks like a pit scratch when I hit
We both know you pussy but you stay talkin shit
What I'ma have to do dog, run up in yo mess
Catch you while you comfortable put one up in yo chest
One up in yo vest of course pay the hollows
And blown away today you just lost tomorrow
I'ma go platinum (nah) you gots to be kiddin WHY
Make it double platinum, no bullshittin
And I'ma stay flippin flows, rippin shows
Strippin ho's, gettin dough let me go
And nigaz know, who the best is
The dog, DMX is the rest is or might as well be helpless
I wreck this cuz when I wreck shit
I might snatch a niggaz necklace
Then go from like midnight to breakfast
COME ON
