I'm addicted to the rush you give me
Come get close feel me hearts confession
Beat keeps pumping and my feet keep dancing,
Come get close you're the one obsession

Four on the floor
I want more
And nothing's gonna stop the way I feel
On the floor, I want more.

4, 3, 2, 1

There's a big, big love in the air
There's a big, big love everywhere
It's the way that you make me feel
Got me down for real,
Got me down for real

There's a big, big love in the air
There's a big, big love everywhere
It's the way that you make me feel
Got me down for real
Got me down for real
Big love

We'll keep moving 'til the Break of dawn
Skinny jeans cut like an indiscretion
Short term love girl it's not my thing
I'm for good I'll be your possession

Four on the floor
I want more
And nothing's gonna stop the way I feel
On the floor, I want more

4, 3, 2, 1

There's a big, big love in the air
There's a big, big love everywhere
It's the way that you make me feel
Got me down for real,

Got me down for real

There's a big, big love in the air
There's a big, big love everywhere
It's the way that you make me feel
Got me down for real,
Got me down for real (you got me down for real)
Big love

I wanna see you dance now.
Baby, just move it, move it
Yeah.
I've got this big, big love big, big love now

Baby, you know you got me down

There's a big, big love in the air
There's a big, big love everywhere
It's the way that you make me feel
Got me down for real,
Got me down for real

There's a big, big love in the air
There's a big, big love everywhere
It's the way that you make me feel
Got me down for real,
Got me down for real
Yeah

There's a big, big love in the air
There's a big, big love everywhere
It's the way that you make me feel
Got me down for real,
Got me down fo real
Big love
