"Love Finds A Way"

Visit "[Love Finds A Way](#)" on MotoLyrics.com

I feel the days
As they drift out into tomorrow
And on their way, so far away
There for me to follow

(all the way)
As I wander all alone
(all the way)
Can't find my heart a home

Love finds a way
Lights up the darkest hour
Love finds a way
Takes you to a better place

I keep the faith
As I hear the talk that's around me
Uncertain way, livin' day by day
Always there to haunt me

(all the way)
As the fortunes call my name
(all the way)
And the fear runs through my brains

Love finds a way
Lights up the darkest hour
Love finds a way
Takes you to a better place

Love finds a way (repeat)
