(David Wolfert - Sue Sheridan)

You seem so strong and I feel so tired  
Feels like so long I've been uninspired  
Could I really let go with you  
Could I let you know what I'm goin' through  
And could I be a child with you tonight?

Could I be a child with you tonight  
Could I cry without a reason and you'd never ask me  
why  
Would you love me love me till the mornin' light  
And could I be a child with you tonight?

It's hard sometimes bein' grown-up  
I know I'll be fine once I'm back in touch  
But tonight I'll just forget the world  
And just be someone's little girl  
Could I be a child with you tonight?

Could I be a child with you tonight  
Could I cry without a reason and you'd never ask me  
why  
Would you love me love me till the mornin' light  
And could I be a child with you tonight.

Could I be a child with you tonight?...
