I used to know all those things like honeymoons and  
wedding rings  
The happiness that love can bring I used to know all  
those things  
The morning kiss and evening touch those hours of  
doing nothing much  
That special way a heart can sing I used to know all  
those things  
Our happy home with love inside was leavin' soon and  
then to stride  
Went dreaming room for foolish pride they too  
Once happy times were mine to know they seemed to  
be so long ago  
But once upon a wedding ring I used to know all those  
things  
[ steel ]  
Our happy home with love inside was leavin' soon and  
then to stride  
Went dreaming room for foolish pride they too  
Those happy times I used to know they seemed to be  
so long ago  
But once upon a wedding ring I used to know all those  
things  
Oh once upon a wedding ring I used to know all those  
things
