One day baby you'll be sorry for the way you make
people cry
It's not so funny not really funny one day you'll wake up
and realize
Just keep it up just keep it up just keep it up and see
what happenes
One day you told me oh how you told me things that
made me shake inside
And then you kissed me oh how you kissed me then
turned around and said you lie
Just keep it up just keep it up just keep it up and see
what happenes
Please stop doing the things you're doing I know we
can't get along
Your love could learn out one day you'll see and then
your heart will belong to me
Just keep it up just keep it up just keep it up and see
what happenes
Just keep it up just keep it up just keep it up and see
what happenes
Just keep it up just keep it up just keep it up and see
what happenes
