(Billy Sherrill - Glenn Sutton)

Kiss away, kiss away, guess that's all that's left to say
Please come back and kiss these tears away
Smile again, let me smile again, make my life
worthwhile again
Please come back and kiss these tears away.

Only you can change these sad and blue days
Only you can make them I-love-you days
Oh, kiss away, kiss away, still there's nothing left to say
Please come back and kiss these tears away.

Only you can change these sad and blue days
Only you can make them I-love-you days
Oh, kiss away, kiss away, still there's nothing left to say
Please come back and kiss these tears away...
