"Paper Mansions"

Don't build for me no paper mansions that I can never
call my own
For love can't live in paper mansions that only stand
until you've gone

You paint the nicest futures of anyone I know
You always leave me holding on to pretty words that
glow
You've built a thousand mansions out of dreams that
seem so strong
But they're always made of paper not of stone
Don't build for me...

[piano]

You've always been a dreamer dear and I'm a dreamer
too
But I guess I've had too many of the kind that don't
come true
So don't build me no mansions with paper walls so thin
That only stand until you leave again
Don't build for me...
