In here the lights are dim but all around  
My eyes see things they wish that they never even  
found  
Your party's gettin' rough and this party's seen enough  
To know that I had best be homeward bound  
Take me home please take me home I'm not your kind  
of girl  
Take me home please take me home I don't belong  
here in your world

It hits my mind like water in the face  
The kind of girl you thought I was ti bring me to this  
place  
I guess I'm just naive but somehow I believe  
There's more to life than living in disgrace  
Take me home...  
I don't belong here in your world
