(Conway Twitty)

Walk me to the door and hold me close just one more
time
Kiss me just once more the way you did when you were
mine
The longest walk I'll ever take will be across that floor
That's why I'm asking one last favor walk me to the
door.

I love another, won't you let me be
These are the words that you said to me
How can I go through life without you like it was before
When I can even make it to the door.

Walk me to the door and hold me close just one more
time
Kiss me just once more the way you did when you were
mine
The longest walk I'll ever take will be across that floor
That's why I'm asking one last favor walk me to the
door.

--- Instrumental ---

I promise I won't try to make commands
I know I don't deserve you back again
My trembling lips are begging now they never did
before
Just one last favor walk me to the door.

Walk me to the door and hold me close just one more
time
Kiss me just once more the way you did when you were
mine
The longest walk I'll ever take will be across that floor
That's why I'm asking one last favor walk me to the
door...
