(Jerry Foster - Bill Rice)

When you say love you're telling everyone your
moment's come
And you've found what your heart's been looking for
When you say love you've said the only word that tells
the world
You never will be lonely anymore.

You've got a pretty rainbow all your own
And at last you've found your pot of gold
You're completely satisfied
A feeling of contentment fills your soul.

When you say love it means you've found your special
one
And that you care enough to give your very best
When you say love there's not another word that means
so much
But that four-letter word means happiness.

Your heart has given wings to touch the sky
Higher than the eagle dares to fly
If you took everything you've heard
And tried to make a magic word
You'll find you've said it all when you say love.

When you say love it means you've found your special
one
And that you care enough to give your very best
When you say love there's not another word that means
so much
But that four-letter word means happiness.

Your heart has given wings to touch the sky
Higher than the eagle dares to fly
If you took everything you've heard
And tried to make a magic word
You'll find you've said it all when you say love.

You'll find you've said it all when you say love...
