(Billy Sherrill - Glenn Sutton)

Just in case you ever get the feeling  
that I'm not proud to tell the world you're mine  
If you don't think I've built my world around you  
Here's my favorite love song one more time.

You're my sunshine, you're my love  
You're every single thing I ever dreamed of  
You're my moon at night, my wrong, my right and  
every song I sing  
You're my sunshine, you're my world, you're  
everything.

--- Instrumental ---

The day you came along I started living  
Every single minute just for you  
At last I know that happiness is giving  
And here's why you affect me like you do.

You're my sunshine, you're my love  
You're every single thing I ever dreamed of  
You're my moon at night, my wrong, my right and  
every song I sing  
You're my sunshine, you're my world, you're  
everything.

--- Instrumental ---

You're my sunshine, you're my love  
You're every single thing I ever dreamed of  
You're my moon at night, my wrong, my right and  
every song I sing  
You're my sunshine, you're my world, you're  
everything...
