I hear rumors flyin' about a head on crash
At the stroke of midnight when centuries clash
Some gonna party, some gonna kneel and pray
Well, you can quote the Bible, bribe the devil
But there's gonna be some hell to pay

We were young and innocent
Thought this day would never come
And tomorrow seemed a million miles away
Now let's look each other in the eyes
And realize it could be time
To set aside our anger and know we're all the same

Take my hand, we're gonna cross the line
To a brand new day on the end of time
We're gonna rise as one or fall together
Out here on the ledge
We're standing on the edge of forever, ooh

From the silence I hear the thunder roll
Words of the prophets echo in my soul
What's salvation in this world to me
I know in my heart if we love each other
We can face what's meant to be

We-we-we were young and innocent
Thought this day would never come
And tomorrow seemed a million miles away
Now there's power in the wrong hands
A madman in a foreign land
If we don't get our senses it's all gonna slip away

Take my hand, we're gonna cross the line
To a brand new day on the end of time
We're gonna rise as one and fall together
Out here on the ledge
Standing on the edge of forever

Take my hand, we're gonna cross the line
To a brand new day on the end of time
We're gonna rise as one and fall together
Out here on the ledge

Standing on the edge
Out here on the ledge
Dancin' on the edge of forever

Ooh, of forever
Ohh, of forever
You and I of forever, ohh
Yeah, forever baby
