(Allen Collins - Ronnie VanZant)

Disillusions fillin' my head

Never happy, I wished I was dead

Can't remember things I used to know

Take another hit Lord, let the four winds blow

Junkie, junkie man
Feel so lonely, I wish I could cry

Suicidal, not man enough to die

Can't remember ever feelin' this low

Take another hit babe, here I go

Junkie, junkie man
Yonder come a man, Lord he's got my snow

Help me out babe, get down low

But I can't remember things I used to know

The Lord knows I'm to blame.

Take another hit Lord, and let the four winds blow

Junkie, junkie man
