(J.J. Cale) Have you heard that rumor that's goin'
around My baby's got a man, lord way across town Its
the same old story Tell me where will it end Yes I heard
the news its the same old blues again Well I wrote you
a letter, must have read it wrong Stood at the doorway
and baby you was gone Took a lot of courage To let the
telephone ring I got the same old blues, same old
blues again Well you gave me the business, though I
didn't mind 'Cause I got a lot of patience, Lord got a lot
of time Its the same old story Tell me where will it end I
got the same old blues, same old blues again Here
come my blues Gonna find me a mountain and gonna
hide out Ain't talkin' to you babe, Lord I ain't comin'
back Well I heard that rumor, tell where will it end I got
the same old blues, same old blues again Have you
heard that rumor that's goin' around My baby's got a
man, lord way across town Its the same old story Tell
me where will this end Yes I heard the news its the
same old blues again I got the same old blues, same
old blues again I got the blues... same old blues
