### "4 On The Floor"

Make it 4 on the floor - tonight  
And the dance will be alright  
Make it 4 on the floor - so tight  
Boredom is way outta sight  
Make it 4 on the floor

Everyday I feel so forlorn  
I can't wait 'till the night has come  
When the stars are high above  
I look at the moon  
'Cause I believe, yes I believe in what I feel  
Just when I see the people dancing round and round

I don't know if I'll get the chance  
To get to know why I have to dance  
And the music makes me do things I wouldn't do  
Then I receive, yes I receive a dizzy feeling  
I'm inclined to get on off and hit the floor

Deep in the night when the stars are high above  
I feel the emotions of the people living for the dance  
That's why the D.J.'s gotta make it 4 on the floor
