I send myself a dozen roses  
Right before the office closes  
Just to make my girlfriends green with envy  
Ever since I lost you  
All the crazy things I do  
I didn't even know I had it in me...Oh but

Hey, it's alright  
It's just another Saturday night  
Got nobody...got no nothin' to lose  
I'm gonna get dressed up go downtown  
Spread a little misery around  
Anything's better than feelin' the blues

Found a restaurant on my way  
(I) told 'em it was my birthday  
Just to hear the waiter sing off-key  
Sprung a loose wire...that's a fact  
Got a strange little monkey on my back  
But I kinda like the company...And I guess

Hey, it's alright  
It's just another Saturday night  
Got nobody...got no nothin' to lose  
I'm gonna get dressed up go downtown  
Dance the little monkey around  
Anything's better than feelin' the blues

Hey, it's alright  
It's just another Saturday night  
Got nobody...got no nothin' to lose  
I'm gonna get dressed up go downtown  
Live it up and never live it down  
Anything's better than feelin' the blues

Anything's better than feelin' the blues
