When's your birthday?  
What's your middle name?  
Who's your hero?  
What's your favourite flavour ice-cream?  
Can you tell me, tell me this

Are you Aries?  
Are you on the cusp of cancer?  
Gonna get to know you better  
What? No it's not a quiz

You can trust me now, we'll dig a little deeper  
Let's trade numbers let's trade beepers  
So I can find you any place  
Hey, why are you looking at your watch?  
We haven't had desert  
It's early just 8:30, only our first date

I wanna know do you love me yet?  
Do you feel the same? are you everything?  
I wanna know isn't true love great?  
Come'on tell me, when's your birthday?

Where ya going  
Why ya leavin'?  
After all we've been through  
Can't you think of me, I'll think of you  
Don't throw it all away  
I'll quit my job I'll have your children  
You'll work hard I'll spend your millions  
Hey no pressure you've got time  
Just don't make me wait

I wanna know  
Do you believe in fate?  
When you're moving in, be my everything  
I wanna know we are for always  
Come'on tell me, when's your birthday?  
When's your birthday?

And it isn't just a ??? high

I never felt this way about any other guy before  
I ain't getting any younger  
I ain't fooling anymore

I wanna know do you love me yet?  
I wanna wear your ring, be your everything  
I wanna know isn't true love great?  
Come on tell me Come on tell me

I wanna know do you believe in fate?  
Do you feel the same? be my everything  
I wanna know isn't true love great?  
Come on tell me  
When's your birthday?
