I forget when words were only words  
She knows the party makes me nervous  
In this stage we can't get hurt  
Don't try to understand me

We're too cool to be alone  
But, not too crazy to get busted

I found out one life just ain't enough  
I need another soul to feed on  
I'm the flame I can't get burnt  
I'm wholly understated

I found silence in this space  
An on and off again attraction  
I need such amazing grace  
Heaven sweep me away

(Chorus)  
Love don't change, don't come around here  
Don't wear my heart on your sleeve  
Like a high school letter  
Don't strain, 'cuz nothing ever come from it  
And the people we've become, well  
They've never been the people who we are

I strap on one horse and pray for luck  
I dug another hole to bleed  
I know exactly how this works  
I need a new feel dirty

I don't need you crowding up my space  
I just want to get inside you  
You can't believe the heart you save  
Giving something away  
(Chorus)

I dreamed that the world was crumbling down  
We sat on my back porch and watched it  
I dreamed that the buildings all fell down  
We sat on my back porch and watched it

I dreamed that the world was crumbling down  
We sat on my back porch and watched it  
In my head I heard the sound  
Like fifteen strangers dancing

But oh how I want you to know me  
Oh how I want you to know me  
Oh how I wish I was somebody else, baby  
Oh how I wish you could own me  
(Chorus)
