Oh, don't you wanna be with me

Can't you see what I've been going through
Cause I wanna be with you
Changes I've been going through
Cause I wanna be with you

It's all gone
The love I thought we shared is gone away
Maybe it's better that we didn't stay together

Seems like we've gone through this a thousand times
Maybe I still don't have the answer
Why can't you tell me why we couldn't be together

See, I didn't want to ever hold you tight
But still I need love and affection
Was it that hard for you to show me some attention

Tell me baby, did I push you away
Was I coming on too strong for you
Why can't you tell me
Tell me what am I do
Oh can't you see

(repeat until end)
