Ace high in golden

I was tall and on the rocks

And a little touch of attitude

Who's that Madame X

Comon' in at three o'clock

Why don't you send her over, one, two

Next thing I remember

I was crawlin' round the room

She was dacin' on the table

Blood shot barking' at the moon

Colorado Bulldog

This night has gone to my head

Colorado bulldog

Throw a leash around my neck

Turn around and run like hell

Swingin' from the rafters,

Losin' all control

Playin' a little game of cat and mouse

I popped the question

I've been lonely much too long

Last call, the drinks are on the house

Next thing I remember  
Through the pandemonium  
It was feelin' like a nightmare  
That bites right into my skin  
My sweet Lolita, a preying maneater  
Left me in the number six motel  
How was I to know  
She'd strip me to the bone  
And steal away my heart as well  
Colorado bulldog  
This night has gone to my head  
Colorado Bulldog  
Throw a leash around my neck  
Bottoms up, down the hatch  
It's time to start all over again.
