See you from across the room  
It's friday night and i'm going to a party  
with my man to dance  
Soo as we get in he is lost with his friends  
and i'm there in a trance  
Bridge:  
I can tell that someone's looking at me  
And I didn't come here by myself  
But he left me here as someones else's.....  
So it must be he didn't care  
I'm goin on  
Chorus:  
See you from across the room  
Like you wanna know me boy  
If you wanna make a move  
Meet me on the dance floor  
Thought i'm here with someone else  
He's not what i'm looking for  
Instead of sittin' cross da room  
Meet me on the dance floor  
As the night goes on each glance,  
makes me wonder what is on your mind  
More than a dance as you,  
pull up to me and it feels alright  
(Bridge)  
(Chorus)  
Let me know what you wanna do  
Can you tell that i'm into you  
I'm lettin' you know that your right on time  
Cause i'm looking for someone else tonight  
(Chorus)
