Like Cleopatra got the masses at my feet
Gotta living dwell down on easy street
And I'm the latest craze
And if you stay awhile
Inevitably you gonna bite my style in your later days
Now let me tell you what is fact and what is true
I get high alot ain't got much to do
I'm always in a daze
That was just a dream I had last night in my bubble
bath
Next to my wishing well
Get up get out and do something
Don't let the days of your life pass you by
You got to get up get up and do something
How will you make it if you never even try?
Get up get out and do something
Can't spend your whole life trying to get high
You got to get up get out and do something
Cuz you and I got to do for you and I

What's been happening? How you doing? Where you
been?
I'm further behind now then I was back then
Lost in some ole maze
Some years have passed me by
All I want is to go get high
I'll get it together some other day

In my dreams I dwell, cause all my dreams are swell

Get up get out and do something
Don't let the days of your life pass you by
You got to get up get out and do something
How will you make it if you never even try?
Get up get out and do something
Can't spend your whole life trying to get high
You got to get up get out and do something
Cause you and I got to do for you and I
Get up, get out and do something
How will you make it if you never even try?
Get up, get out and do something

Cause you and I got to do for you and I

In my dreams I dwell, cause all my dreams are swell
And you would too, If you could see them
That's when I know
I gotta go get up, get out

Heaven's at my feet, gotta living dwell down on Easy
street
I'm the latest craze
That was just a dream I had
Last night in my bubble bath next to my wishing well

Get up, get out and do something
How will you make it if you never even try?
Get up, get out and do something
Can't spend your whole life trying to get high
You got to get up get out and do something
Cause you and I gotta do for you and I
Get up, get out and do something
How will you make it if you never even try?
