Ooh, yeah-eah-eah-eah, come on  
My one true love,

I feel the same, (feel the same)

My hearts on fire,

A burning flame, (burning flame)

I try to share my hearts love song,

But the words i say,

All come out wrong, (oh, come one!)

I hesitate,

there are no words,

Just lips and arms,

For all their worth,

To hold u close,

And kiss u near,

And once thats done,

Its crystal clear.

(bridge)

Just to see you is enough to make me feel so fine,

I just wanna make you mine! (woohoo)

So while our lips are locked together,

I realise your my perfect treasure,

I look at you, you look at me,

This must just be a fantasy!!!

(CHORUS)

Your cool, your fine, I wanna make you mine!

But how? My love, when you just ignore,

It's not nice, and it ain't fare,

But just let me run my fingers through your hair,

I have found my heaven right here on earth.

So I come near you,

But you walk away.

What am I doing wrong?

I love you, Your beauty knows no ends,

But all I can do is turn around and scarper,

Cos your abusing my love,

So goodbye and farewell.
