

M**"Fool Of Me"**

Visit "[Fool Of Me](#)" on MotoLyrics.com

I remember when you filled my heart with joy
Was I blind to the truth just there to fill the space
'Cause now you have no interest in anything I have to
say
And I have allowed you to make me feel dumb
What kind of fool am I that you so easily set me aside

You made a fool of me
Tell me why
You say that you don't care but we made love
Tell me why
You made a fool of me you made a fool of me

I want to kiss you
Does she want you with the pain that I do
I smell you in my dreams
But now when we're face to face you won't look me in
the eye
No time no friendship no love
Don't say don't touch you I can't touch you no more
Can't touch you any more any more
I don't touch you anymore

You made a fool of me
Tell me why
You say that you don't care but we made love
Tell me why
You made a fool of me you made a fool of me
