### "Gone After Midnight"

Visit "[Gone After Midnight](#)" on MotoLyrics.com

I been here waiting for someone to share my vision  
Coming here tonight was not the best decision  
You look like someone who might welcome some  
direction  
You look like one who's grown accustomed to attention

Come and be yourself with me baby talk to me  
Loose your self inside the beat

Chorus:

I won't be gone after midnight I'm not at dream  
This dream vill vanish in daylight but I will be

My life is a late night party in the smokey light  
Strangers move together whispering sweet lies  
Dancers move like lovers leave the world behind  
A secret wish takes hold and burns down deep inside

Common people find uncommon states of mind  
You'll want it more and more each time

Chorus:

I won't be gone after midnight I'm not a dream  
This dream vill vanish in daylight but I will be
