You came into my life  
And you showed me how to feel.  
You covered me with love  
And you made me feel so real.  
I don't wanna lose your love -  
You're the only one I'm dreaming of.  
Let this feeling never end -  
You were heaven sent

Love is just a heartbeat away  
Now here is my promise :  
I'll take you to the moon and back  
I'll light each star for you  
Love is just a heartbeat away  
To you I'll swear - babe  
I'll let the snow fall down in June  
To make my dream come true - that you'll be mine !

I'll be there for you  
You can always count on me.  
I don't wanna live without you  
(Without your love - without you near by my side)  
I just wanna spend my time - close to you  
You make me feel so right.  
Let this feeling never end  
You were heaven sent

You came and changed my life  
Cause you showed me :  
Honesty, true love and dignity.  
It's so amazing it's so sweet it feels like heaven !
