Another night, is not what girls want  
To be in love, to be by someone's side  
And to be treated like a goddess on a throne  
So come on baby  
Don't be ashamed, to give him your best shot  
He won't refuse, you got to play it right  
Ever girl, every guy has their own desire  
Every girl has their own dreams, its the nature of  
desire  
Every girl knows what she needs, its the nature of  
desire

Chorus:

Natural, natural desire (3x)

Someone dear, is just what I need  
To stay right here, always think of me  
And what you see is exactly what you get  
So come on baby  
Every girl has their own dreams, its the nature of  
desire  
Every girl knows what she needs, its the nature of  
desire

Chorus

Every girl has their own dreams, its the nature of  
desire  
Every girl knows what she needs, its the nature of  
desire

Chorus (2x)
