I can't believe
After all this time
I'm in love with a man
Who can never be mine
And just to think
I believe one day you'd really leave
Like you said you would
Cause you don't love her
But your little girl really needs you, oh

1 - Christmas you weren't with me
New Year's Eve you were not around
Valentine's came and went
Makes me wonder where your time was spent
Fireworks on the Fourth of July
Thanksgiving was another lie
Your family has never met me
And you've never met mine, no happy holiday

I have to let go of this feeling
Being with you deprives me of a true love
I can't go on living this life
Without being number one
This is finally goodbye
I pray to God you live a happy life
Cause loving you just isn't right

Repeat 1

I wish I had known
The situation from the start
Now it's complicated
Because I gave you my heart
Honestly I held on
For my ego, my pride
But what goes around, come around
But maybe next time I'll be on the other side

Hmm, oh, yeah, oh
Last time little didi, di
You're gone do, do, do, dum

Do do, do, do, do ooh, hey oh

Repeat 1
