Verse 1: (Mercedes)

Baby light a candle, I wanna get you in the mood
Slip you into my bedroom, and show you the freaky
things that I can do
Let me take you places, so let your body just receive
I hope you're feeling my emotions baby, got me in
ecstasy

Verse 2: (O'Dell)

Alright, alright, alright
Explore your every avenue, I'll show you the things that
I can do
Girl, let me take you everywhere, take you places you
wouldn't dare
Go on and on and on all night, let me touch you, tease
you
Please don't fight, you know you want what soldiers do
Let me do it to you

Chorus: (Mercedes, Erica Foxx, Peaches)

Let me take you on a pony ride, just get inside, while
I'm nice and hot
Oo my lovin' goes on and on and on and on and on
Let me take you on a pony ride, just get inside, while
I'm nice and hot
Oo my lovin' goes on and on and on and on and on

Verse 3: (Peaches)

Come and lay your body down, right here next to me
The temperature's rising, I know you can feel the heat
See I know, I know, I know you've had a very long night
But I promise when I give you my love, everything is
gonna be alright

Verse 4: (Erica Foxx)

Let me take you away to a place unlike you've ever

known

I will give you love, baby, cuz now you're home
Let me get you close to me, I will give you what you
need
Tonight's the night, sweet baby, so give in to me

Chorus: (Mercedes, Erica Foxx, Peaches)

Let me take you on a pony ride, just get inside, while
I'm nice and hot
Oo my lovin' goes on and on and on and on and on
Let me take you on a pony ride, just get inside, while
I'm nice and hot
Oo my lovin' goes on and on and on and on and on

Let me take you on a pony ride, just get inside, while
I'm nice and hot
Oo my lovin' goes on and on and on and on and on
Let me take you on a pony ride, just get inside, while
I'm nice and hot
Oo my lovin' goes on and on and on and on and on

Let me take you on a pony ride, just get inside, while
I'm nice and hot
Oo my lovin' goes on and on and on and on and on
Let me take you on a pony ride, just get inside, while
I'm nice and hot
Oo my lovin' goes on and on and on and on and on
