Now I'm gon tell it like this girlfriend he don't love you
Never have I seen him kiss or hug you
He don't make effort he don't respect you or accept
you for you
Teels you what to wear and how to behave
Comes in your home and treats you like his slave
Don't need him if he make you sacrifice your freedom
get him out your life
Shout and curse at you in public places
Sleep in your house on a part-time basis
He ain't even takin' care of his child he don't make you
smile

I understand you love him and your down
But that don't mean you got to be his clown

Girl you got to put him out
Change them locks and all that
Girl you got to put him out
And this time don't take him back
Girl you got to put him out
Take the time to love yourself
Girl you got to put him out
You can find real love with someone else

He don't even know how to be honest
All he know how to do is false promise
Any real man agree he ain't a man after the first time
that he raised his hand
Treat your home like hotel don't pay his way
Lost count of the times that that dog has strayed
Sleep around creep around bring back disease what if
next time it was H.I.V?
4 baby mummas, 8 kids and no work
You can play strong but I know that it hurt
You make the choices you gotta stop this 'cause
girlfriend the boy worthless

I understand that you were love birds from school
But how did you get from being his girl to just being his
fool

Girl you got to put him out
Change them locks and all that
Girl you got to put him out
And this time don't take him back
Girl you got to put him out
Take the time to love yourself
Girl you got to put him out
You can find real love with someone else
Girl you got to put him out
Change them locks and all that
Girl you got to put him out
And this time don't take him back

Your little girl needs a daddy I agree but the fool is far
from that
Any boy can be a father that ain't reason enough to
keep on takin' him back
He never reads with her or takes her out that shits
called neglect you hear
Sure she confused and tired of always seeing
mummys face bruised and drowning in tears
Look what you showing her by letting him dis-respect
you
You just growin' her to think that its something that all
men do
You owe it to yourself and your daughter 'cause she
thinks its all alright
When she get older follow the footsteps you showed
her
How you gonna look her in the eye

Girl you got to put him out
Change them locks and all that
Girl you got to put him out
And this time don't take him back
Girl you got to put him out
Take the time to love yourself
Girl you got to put him out
You can find real love with someone else
Girl you got to put him out
Change them locks and all that
Girl you got to put him out
And this time don't take him back
Girl you got to put him out
Take the time to love yourself
Girl you got to put him out
You can find real love with someone else
