Wrote me in a letter
That she makes you feel better
All of the things you said to her
But I feel what I feel, it's real

She ain't right for you
She don't know you like I do
And no matter what she do
She ain't right for you

Don't you wanna be happy
Maybe you should stay with me
'Cause she ain't right for you
She don't love you like I do

Turned me around
Turned me upside down
Sporting the tears of a clown
But I feel what I feel, it's real

She ain't right for you
She don't know you like I do
And no matter what she do
She ain't right for you

Don't you wanna be happy
Maybe you should stay with me
'Cause the ain't right for you
She don't love you like I do

It will stay
And I'll spend all my day
Chasing a love that she took away
But I feel what I feel, hey

You know, baby
I've been tryin' to tell you for a mighty long time
now
That you can keep lookin', you can keep searchin'
All over the world, baby
Tryin' to find a love like mine

But the real thing is right here, baby
And no matter what she say, no matter what she do
She don't love you like me, yeah

She ain't right for you
She don't know you like I do
No matter what she do
She ain't right for you

Don't you wanna be happy
Maybe you should stay with me (Stay with me, hey, stay
with me)
'Cause the ain't right for you (Stay with me)
She don't love you like I do (Stay with me)

Stay
Oh, now, now
I'll spend all my days
Oh, chasing a love
I should just walk away
But I feel what I feel
