Slow down baby
The lovin' ain't goin' nowhere

Don't rush baby
The lovin' ain't goin' nowhere
Slow down
Don't rush baby
The lovin' ain't goin' nowhere
Slow down

When we make love
Baby all we got to do is take our time
And get it, get it right in the groove

Now there's no need for us to be
In a rush so slow it down
Slow it down and get it right

Now baby it's understood
When the lovin' is feeling good
So let's just take our time and make it last

Now I've got a feelin' baby
That tonight could be the night
Don't rush it
Don't fight it

If you got a notion
Baby please let it be slow motion
Slow it down, baby
Keep it right there
Keep it right there

Now baby it's understood
When the lovin' is feelin good
So let's just take our time and make it last
