Slow down baby  
The lovin' ain't goin' nowhere

Don't rush baby  
The lovin' ain't goin' nowhere  
Slow down  
Don't rush baby  
The lovin' ain't goin' nowhere  
Slow down

When we make love  
Baby all we got to do is take our time  
And get it, get it right in the groove

Now there's no need for us to be  
In a rush so slow it down  
Slow it down and get it right

Now baby it's understood  
When the lovin' is feeling good  
So let's just take our time and make it last

Now I've got a feelin' baby  
That tonight could be the night  
Don't rush it  
Don't fight it

If you got a notion  
Baby please let it be slow motion  
Slow it down, baby  
Keep it right there  
Keep it right there

Now baby it's understood  
When the lovin' is feelin good  
So let's just take our time and make it last
