### "South Side"

Visit "[South Side](#)" on [MotoLyrics.com](https://MotoLyrics.com)

See myself in the pouring home  
See the light come over now  
See myself in the pouring rain  
I watch hope come over me

Here we are now going to the east side  
I pick up my friends and we start to ride  
Ride all night we ride all day  
Some may come and some may stay

Here we are in the pouring home  
I watch the light man fall the comb  
I watch a light move across the screen  
I watch the light come over me

Here we are now going to the west side  
Weapons in hand as we go for a ride  
Some may come and some may stay  
Watching out for a sunny day where there's

Love and darkness and my sidearm  
Hey, elan

Here we are now going to the north side  
I look at my friends as they start to ride  
Ride at night we ride all day  
Looking out for a sunny day

Here we are now going to the south side  
I pick up my friends and we hope we won't die  
Ride at night, ride through heaven and hell  
Come back and feel so well.
