There's something that I wanna say  
Feel a little outta place  
But I needed to make that change  
You promised to keep me out of the rain  
I love the cars and everything the diamond rings  
But I loved you much more baby  
You said that you were gonna stop  
When you had enough  
Do what you had to do  
Now you like the profession  
You made it for yourself  
You said forget about me and you  
Now all you wanna do is hustle  
You gotta choose what you gonna do  
When am I worth it to you baby  
Never thought I'd be afraid to trust  
Somebody that I loved so much  
If I can get him outta the streets  
Then he can come back to me  
Now I see that it ain't no us  
Baby to me that's a definite plus  
If I can get you outta the streets  
Then you don't need to be with me  
Do you love me like you say?  
Maybe you could getaway  
From the life of doing wrong things  
You promised  
Don't make me read about it babe  
Think of me before I'm gone  
'Cause when I'm gone it will be too late  
You said that you gone stop  
And you had enough  
Do what you had to do  
Now you like the profession  
You made it for yourself  
You said forget about me and you  
Now all you wanna do is hustle  
You gotta choose what you gonna do  
I meant my word to you baby  
Never thought I'd be afraid to trust  
Somebody that I loved so much

If I can get him outta the streets  
Then he can come back to me  
Now I see that it ain't no us  
Baby to me that's a definite plus  
If I can get you outta the streets  
Then you don't need to be with me  
Never thought I'd be afraid to trust  
Somebody that I loved so much  
If I can get him outta the streets  
Then he can come back to me  
Now I see that it ain't no us  
Baby to me that's a definite plus  
If I can get you outta the streets  
Then you don't need to be with me  
Never thought I'd be afraid to trust  
Somebody that I loved so much  
If I can get him outta the streets  
Then he can come back to me  
Now I see that it ain't no us  
Baby to me that's a definite plus  
If I can get you outta the streets  
Then you don't need to be with me
