[Rodney Jerkins]  
Darkchild 2000  
Uh huh uh huh  
Uh come on  
I like that uh  
Mya you ready?  
Put your gloves on  
It's on let's go

[Mya]  
We fight all day  
Make up all night  
Our love's up and down  
It makes the mood just right  
For us to do what I love to  
So if I pick a fight  
You know what I'm up to  
Don't shake your head  
Baby instead  
Give into me this fight  
You won't forget  
I promise you when we're through  
You won't hesitate to say I'm sorry boo

I just want to make up  
Cause I want you so much  
That's why we have to stay  
Getting into it, someday  
Never endin' it  
So don't get mad at me  
Sometimes I get the strangest needs  
That's why I turn to you  
So you can handle it baby  
You're the man for it

We gotta make up tonight  
That's what I wanna fight with you  
Break the rules  
So we can get it right  
And I'll show you how I do  
I wanna fuss and fight

Then make it up tonight

If I'm forced to make up with you  
There's nothing left to say  
But my plan went cool  
So that's when you apologize too  
Then ask baby is there something you can do  
Then I'll say yes, half undressed  
Then I'm pretty sure that you can handle the rest  
So how do you like the new game that I play?  
When I really want you

I just want to make up  
Cause I want you so much  
That's why we have to stay  
Getting into it, somedays  
Never endin' it  
So don't get mad at me  
Sometimes I get the strangest needs  
That's why I turn to you  
So you can handle it baby  
You're the man for it

We gotta make up tonight  
That's what I wanna fight with you  
Break the rules  
So we can get it right  
And I'll show you how I do  
I wanna fuss and fight  
Then make it up tonight

[RJ](Mya)  
(Yeah, yeah, yeah)  
Yeah uh Darkchild we don't stop (oh)  
Mya we don't stop, uh  
And if you feel that let me see you dance  
And if you like that let me see you dance  
And if you want that let me see you dance  
And if you with that let me see you dance

We gotta make up tonight  
That's what I wanna fight with you  
Break the rules  
So we can get it right  
And I'll show you how I do  
I wanna fuss and fight  
Then make it up tonight

We gotta make up tonight  
That's what I wanna fight with you  
Break the rules

So we can get it right  
And I'll show you how I do  
I wanna fuss and fight  
Then make it up tonight

Getting into it  
(Getting into it)  
Never endin' it  
(We're never ending it)  
So you can handle it  
(I can handle it)  
You're the man for it  
(I'm the man for it)  
Getting into it  
(Getting into it)  
Never endin' it  
(We're never ending it)  
So you can handle it  
(I can handle it)  
You're the man for it  
(Cause I'm the man for it)  
Getting into it  
(M-Y-A)  
Never ending it  
(Darkchild)  
So you can handle it  
(Uh)  
You're the man for it (Yeah)  
Getting into it  
(Uh-huh)  
Never ending it  
So you can handle it  
(Yeah)  
You're the man for it  
Getting into it  
Never ending it  
So you can handle it  
You're the man for it...
