Visit "[The Whispering Wind](#)" on MotoLyrics.com

When the Whispering Wind blows on by  
Autumn leaves start to fly  
When the Whispering Wind blows on by  
What'll I do to keep me warm?  
When it comes, winter storm  
What'll I do to keep me warm?

What'll I do when you're away?  
And the fire is gone, the skies are grey?  
How I wish that I could make you stay

Please don't go, I need you so  
The Whispering Wind told a lie  
Broke your heart, made you cry  
Cause you believed the Whispering Wind  
What'll I do when you're away?  
And the fire is gone, the skies are grey?  
How I wish that I could make you stay

Please don't go, I need you so
