Between the perfect world and the bottom line
Keepin' love alive in these troubled times
Well it's a miracle in itself
And we know too well what that's about
Still we made it through
Only God knows how
We must have had a little help

(CHORUS)

It must have been wild angels
Wild angels
Watchin' over you and me yeah
Wild angels
Wild angels
Baby what else could it be

Well it must have been hard
It must have been tough
Keepin' up with crazy fools like us
Cause it's so easy to fall apart
And we still break eachother's hearts sometimes
Spend some nights on the jagged side
Somehow we wake up in eachother's arms

(CHORUS)

There are some nights
I watch while you dream
I swear I hear the sound...
Beating wings yeah

Oh it must have been wild angels
Wild angels
Watchin' over you and me yeah
Wild angels
Wild, wild angels
Baby what else could it be

Wild angels, wild angels, wild angels....
