Woman, sensuous woman  
You control the world I'm living in  
Woman, sensuous woman  
Release my body and let me live again

Step by step you taught me easy lovin'  
Night by night you caught me in your web  
My self control was overruled by passion  
Now I couldn't see the heartache up ahead

Woman, sensuous woman  
You control the world I'm living in  
Woman, sensuous woman  
Release my body and let me live again

Someone true is waiting I should be with her  
And she don't know I crave your ecstasy  
But many hearts will break if I don't conquer  
This lustful spell you've cast over me
