"You Keep Me Running"

Visit "[You Keep Me Running](#)" on MotoLyrics.com

I never met anotherone
who made my life so much fun
'cos every moment I'm with you
I never know what you're gonna do

Every day you change your mind
do something different all the time
Life is a game you wanna play
twentyfour hours a day
It's funny how

Chorus:

You keep me running going and coming
I like the feeling it's out of control
There's no denying you send me flying
I'm hoping you catch me when I fall

You drive me crazy but I don't mind
someone like you is hard to find
I like the way you're moving around
In your world everything is upside down

Every day you change your mind
do something different all the time
Life is a game you wanna play
twentyfour hours a day
It's funny how

Chorus:

You keep me running going and coming
I like the feeling it's out of control
There's no denying you send me flying
I'm hoping you catch me when I fall
