[Jaz]

As it is written just picture  
Where hip hop meets scriptures  
Through Christ the words is life to all and that's the  
kicker  
Spirits thinker from chapter to chapter as God speaks  
Mysteries captured from heaven as man reads  
And you can meditate and God's word penetrates  
to keep your mind state from heading reprobate  
like love and hate its a thin line from life and death  
your last breath when you stand before the throne,  
your life's left  
let there be Light and light was  
hang the stars to shine bright and night does  
before the foundation of creation see God was  
as it is written in his word because God loves  
Revelations and Genesis holiness written  
in all pages inspiration from god given  
to all ages its the reason why my soul could never die  
its the bread of life to all you ask the question why, as it  
is written

[Chorus]

As it is written

[4x]

[Big J]

I have been hard stress but been hard bless  
been put through the test I never settle for less  
always confess jesus wherever we go  
when we came in 3 we left with 4  
Nebcanazeer could never connive who soul is alive  
in Christ never dies so we stirve to survive  
no flame can scorch the upright as we grab the mic  
we mediate on the word day and night  
as we seek Yaway not your way  
we cut all games and church play  
and get back to the Basic situation  
from Genesis 1 to the last verse of Revelations  
its a trip in his presence how the tide turns  
he is the only one that can save your from the fire burn

as it is written is the truth that we better learn  
because through repentance of his name is what his  
blood earned

[Chorus]

[JahWord]

now as we role tot he 2 G plus 1  
your times up with the carnal mind lookin for fun  
ya im ticked cause im sick of the luke warm  
make a choice serve the flesh or the first born  
you take a rap thang way to lightly  
in face it aint a game when young soul pains  
from eternity in the falmes  
well the what you're given  
ya we hear you talk but we see how you living  
had a talk wit God and he showed me  
Devils confess but the really dont know me  
[yo could that be you]  
they blasphemed my name with pleasure  
heart full of liust wickedness their treasure  
but let me set it straight as it is written in scripture  
the wages of sin is show gonna get it ya  
Bro you need to bow while you still got time  
John chapter 3 to the 35 line you need to find

[Chorus]
